Delete your Chrome browsing history

If you don’t want a record of webpages you’ve visited using Chrome, you can delete all or some of your browsing history. If you delete your browsing history, it'll take effect on all devices where you've turned sync on and signed in to Chrome.

Your history will be removed from Chrome. Separately, you can also delete your Google search history from your account.

Learn more about how to turn sync on or off in Chrome.

Computer Android iPhone & iPad

Clear your history

1. On your computer, open Chrome.

How to clear the cache in Microsoft Edge

When Websites are not loaded with the latest data, it could be because you have to delete cached files, in order to let the browser download new data. To empty the cache you can follow one of the instructions below:

1. Clear browser data in Microsoft Edge with the keyboard shortcut.
   1. Press the keys Ctrl, Shift and Del.
   2. A new Window opens. Select the option "temporary services and files".
   3. Confirm your selection by clicking on the "delete" button.

2. Delete the browser cache in Microsoft Edge through the menu.

To delete the browser cache in Microsoft Edge through the menu, follow these steps:

   1. Click on the "Hub" symbol in the main menu.
   2. Then browse to the "History".
   3. Now you can click on "Delete the whole History".
   4. Check the option "temporary services and files" and confirm the selection with a click on the "Delete" Button.
